S. P. C. A. HAD THEIR FIRST CASE THURSDAY

CONVICTED WM. ANDERSON FOR MISTREATMENT OF ANIMAL.

Was Fined $25 or Two Months in "Gang"—Sentence Suspended Under Certain Restrictions.

The first case to come before the courts through the instrumentality of the S. P. C. A. resulted in a conviction, and members of this association assert that they will get busy and see that the laws are complied with.

Officers of the association who have the matter in charge were notified of the case of Wm. Anderson, colored, and he was ordered arrested and brought before Judge Mason upon a charge of cruelty to animals, with the result that he was fined $25 and costs, or two months in the gang.

Owing to this being the first case of the kind to come up, sentence was suspended provided he would place the animal in question in a good pasture and feed and attend him until well and strong, but in the event that he fails to do this he will again be brought up and the sentence executed.

From this time on, members and officers alike will see that the dumb animals of this section have better treatment than in the past and they propose to keep a careful lookout for all offenders. Parties who have heretofore paid little attention to their stock should be more careful and the poor horses that are now being driven will very probably secure some much-needed rest and feed.

THE CO-OPERATIVE CONTEST.

Business Houses That Are in the Plan Which Will Issue Votes.

The handsome pianos and diamond ring to be given away in the Co-Operative Contest will be the grandest distribution of prizes ever offered in Alachua county.

Parties trading with any of the following stores will be given one vote for every penny spent:

Gainesville Furniture Company, furniture; Phifer & Morris Co., clothing and furnishings; Gainesville Hardware Co., plumbing and hardware; Mrs. F. T. McCormick, millinery; W. M. Johnson, drugs and medicines; L. C. Smith, shoes and jewelry; Mrs. R. Wilson, dry goods and notions; Saunders & Earle, groceries and feed stuffs; City Bakery, bread and pastry; P. Y. Smith, fresh meats; Crawford & Davis, livery and sale stables; The Sun, printing and publishing; The Brown House, meals and lodging; N. Francisco, Banana House, fruits, etc.; Eddins Mfg. Co., lumber and building material; Standard Fertilizer Co., fertilizer.

Votes will be given on all orders for job printing at The Sun office, and on subscriptions as follows:

The Daily Sun.

$1.25, three months subscription, old subscribers, 500 votes; new subscribers, 700 votes.

$2.50, six months' subscription, old subscribers, 1,200 votes; new subscribers, 1,500 votes.

$5, one year's subscription, old subscribers, 3,500 votes; new subscribers, 4,500 votes.

For a club of five one-year subscriptions (before 12 o'clock noon, Aug. 18, 1909), old subscribers, 30,000 votes; new subscribers, 35,000 votes.

For a club of ten six-months' subscriptions (before 12 o'clock noon, Aug. 18, 1909), old subscribers, 30,000 votes; new subscribers, 35,000 votes.

Information furnished teachers in reference to other high school books given later.

Under the contracts it is necessary for all books that are to be exchanged to be collected at one place, and that no exchange price will be allowed after one year from date of contract except where children move into the county, in which case the exchange price will be allowed for the full period of contract. Please compare books you have with the list, and where a difference is found send books to John Vidal, Gainesville, with the amount of money necessary for exchange and you will be supplied with books in accordance with the contract. Do not delay until the opening of your school, as no book will be allowed in the lower grades not embodied in the above list. The school law makes it my duty to see that the books adopted are used. Permit me to advise all concerned that I shall track the law to the letter and any teacher's resignation will be requested who allows other books to be used in place of those adopted by the board, as some have done.

A comparison with prices for books heretofore and those required under the present contract will show in a majority of cases a much smaller price.

A reader that heretofore cost 25 cents can now be had for 15 cents. Milne's Arithmetic has been reduced from 65 cents to 45 cents, and Field's History from $1.00 to 65 cents. I hope that all patrons will see that their children are supplied with books according to contract before sending them to school. J. L. KELLEY,

County Superintendent Public Instruction.

A Happy Father

Is soon turned to a sad one if he has to walk the floor every night with a crying baby. McGee's Baby Elixir will make the child well—soothe its nerves, induce healthy, normal slumber. Best for disordered bowels and sour stomach—all teething babies need it. Pleasant to take, sure, and safe, contains no harmful drugs. Price 25 and 50 cents per bottle. Sold by W. M. Johnson.

Lunar Rainbows.

Lunar rainbows are seldom observed in the temperate zone. Very likely the physical phenomenon occurs frequently, but is invisible because of the faintness of the moon's light. In the tropics, where moonlight is more intense, says the Scientific American, lunar rainbows are more frequently observed. They are by no means rare at Reunion island. At all places the phenomenon is most frequently seen at full moon when the moon's light is highest, but it has been seen in various phases of the moon. It was first observed by Aristotle. A lunar rainbow is produced at full moon by the spray of the great Victoria falls of the Yguassu in Brazil.

NEW TRAIN WILL BE WINNER FOR PUBLIC

TIME HAS BEEN DECREASED BETWEEN ALL POINTS.

Can Now Be Named "The Business Man's Special," for It Will Run Some.

The new train service inaugurated over the Atlantic Coast Line from Ocala to Jacksonville will now prove a winner among the travelling public, if fast service is desired.

This new train, which is known as Nos. 9 and 10, under the charge of Capt. "Bob" Frederick and "Billy" Hunt as engineer, will do "some running" between Ocala and Jacksonville, and will doubtless be used extensively in the future by the travelling public.

The service has only been in operation a little over one week and it is already doing a very satisfactory business, but Superintendent McArthur realized that too much time was consumed on the schedule. In order to make it more popular with the people and more remunerative to the company, he has made a new schedule, shortening the time nearly one hour and thirty minutes between Ocala and this city.

Under the new schedule, this train will leave Ocala at 6 a. m. and arrive at Gainesville at 7:45, and arrive in Jacksonville at 10:55 a. m. Returning, it will leave Jacksonville at 4:15 p. m. and arrive in Gainesville at 7:32 p. m., reaching its destination at 9:10.

This will give the people of Gainesville a much longer stay in the State metropolis, and it will also afford a much more convenient schedule for the citizens south of Gainesville to visit here and have more time during the day. They can now spend all or half of the day here, as it pleases them, and then get home early in the evening.

Do You Feed Your Family Lard?

The thought of taking into your stomach raw lard—hog fat—is repellent; then why take it in cooked form? There used to be a *poor* excuse for lard; now there is no excuse at all.

Cottolene is the perfect shortening and frying medium. It is pure, healthful and digestible—there is not a trace of hog fat in it. Its basis is choice cotton seed oil refined by a special process, and then sterilized and deodorized. The use of *Cottolene* is the secret of healthful, digestible cookery.

Call up your grocer this minute and order a pail.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

SHERIFF'S SALE.

Under and by virtue of an order and decree made and entered by the Judge of the Circuit Court of the Eighth Judicial Circuit of Florida, in and for Alachua county, in Chancery, dated May 12th, 1909, in a certain case therein pending wherein D. E. Martin is complainant and John Hampton and Lawyer Hunt are defendants, I will sell at public outcry before the court house door at Gainesville, Florida, on the 24th day of May, A. D. 1909, during the legal hours of sale to the highest and best bidder therefor for cash, the following described personal property, to-wit:

One cream-colored horse, named "Charlie"; one black top buggy, and one set of harness; said property to be sold as the property of Lawyer Hunt, one of the defendants in the above styled cause.

This May 12th, 1909.

P. G. RAMSEY,
Sheriff of Alachua County, Florida.

LADIES, WHY NOT PRESERVE YOUR YOUTH AND BEAUTY?

Nothing so detracts from the attractiveness of women as dull, faded, lusterless hair.

There is no excuse for this condition nowadays, because notice is hereby given to the readers of The Sun that Parisian Sage, the quick-acting hair restorer, is now on sale in Gainesville at the drug store of W. M. Johnson and is sold with a rigid guarantee at 50 cents a bottle.

Since its introduction into America, Parisian Sage has had an immense sale, and here are the reasons:

It is safe and harmless.

It cures dandruff in two weeks, by killing the dandruff germ.

It stops falling hair.

It promptly stops itching of the scalp.

It makes the hair soft, glossy and luxuriant.

It gives life and beauty to the hair.

It is not sticky or greasy.

It is the daintiest perfumed hair tonic made.

It is the best, the most pleasant and invigorating hair dressing made.

For sale by leading druggists everywhere. The girl with the auburn hair is on every package.

Fight shy of the druggist who offers you a substitute, he is unworthy of your confidence.

This is what Mrs. Elizabeth E. Anderson, Mechanicsburg, Pa., writes: "I had given up hope of ever being cured of dandruff, when I purchased a bottle of Parisian Sage. It has entirely removed the dandruff, and has started a growth of new hair, and all this after having been troubled for 15 years. I cheerfully recommend Parisian Sage."

The Tampa Times has just closed a circulation-promotion contest in which the young lady who received the largest vote was awarded $1,000 in cash. The liberality of The Times is only exceeded by its progressiveness.

The Pensacola Journal in commenting upon the Legislature's stand against reapportionment, says the only way in which to legalize the formation of new counties is to make provision for a constitutional convention.

Norman E. Mack has commenced the publication at Buffalo, N. Y., of The National Monthly, the aim of which is the advancement of Democracy. In the initial number the publisher says "it has been apparent for many years that the Democratic cause has been handicapped and the Democratic home neglected through the lack of party publications, and it is hardly necessary to point out that this publication has both a field and a mission."

People who do much kicking about taxes might be profited and instructed to remember that the tramp is the only fellow who has ever carried their idea to its ultimate and logical conclusion and pays no taxes at all, says The Tampa Times. We are all poor critters, and some of us are thoughtless enough not to carry our conclusions to the logical ultimate—where they would be very interesting to look through and analyze. Let us be reasonable and stand our share of the common trouble and expense.

It is easy to understand the joy of the Hollanders over the birth of a successor to the throne. For years the succession has hung by a single thread of one life and the people have been much concerned as to what would happen if the house of Orange became extinct. It is well-known that Germany has long coveted the Netherlands and is ready on the slightest pretext to set up a claim to it and exert the pressure needful to acquire it. This the sturdy Hollanders with their love of freedom and independence proved time and again through the centuries would undoubtedly oppose. The only alternative would be a revision of the old commonwealth. Fortunately the birth of the princess has staved off, and possibly for all time, the facing of these alternatives.

EXTERMINATE THE FLIES.

Dr. W. A. Evans, commissioner of public health of Chicago, has been giving some excellent advice on the homely but highly important subject of the extermination of the flies, says The Atlanta Journal.

It should not be necessary to say that flies are one of the most effective agencies in the dissemination of disease and that their extermination, as the summer season advances, is one of the most important works of preparation to be undertaken while there is yet time.

Dr. Evans not only indicates the importance of this work, but he gives careful directions as to how it is to be carried out. He gives the formula of a poison that will kill the flies and at the same time will in nowise endanger human life.

A dram of bichromate of potash, dissolved in two ounces of water and sweetened, is the cheap and effective method of encouraging the flies to kill themselves.

There are other sanitary regulations, though, that the health report says ought to be exercised. Here are some of the ways suggested:

Screen your windows and doors before fly time.

Screen all food, especially milk.

Keep flies away from the sick, especially those ill with contagious diseases.

Eliminate the breeding places of flies—this is important.

The following should be done:

Sprinkle chloride of lime or kerosene over contents of garbage boxes and other refuse.

Keep garbage receptacles tightly covered. Clean the cans daily.

Clean the boxes every week. Sprinkle them with kerosene or chloride of lime.

Pour kerosene into the drains; keep sewerage system in good order.

Clean cuspidors every day; keep a five per cent solution of carbolic acid in them all the time.

Don't allow dirt to accumulate in corners, behind doors, back of radiators or under stoves

No dirt—no flies.

The season is already at hand for carrying out these directions and a careful observance of these rules will do much towards preserving the health of the city during the months to come.

THE TARIFF PROBLEM.

No more remarkable situation ever existed in the national legislature of a great nation than that which confronts all inquiries for information regarding the tariff bill, says our Washington correspondent. It is no exaggeration to say that there is just one man out of the nearly five hundred members of Congress who really understands the innumerable schedules of the tariff bill, the effect of their proposed modifications, and the reasons therefor.

There are many, of course, who think they understand one or more specific schedues, but ask any member for clear-cut, definite explanations of this or that schedule, the reasons for and effects of proposed increases or decreases and insist on comprehensive answers, and sooner or later you will get the same reply, "ask Aldrich."

The powerful influence which this baneful situation confers on the Senator from Rhode Island, popularly known as the High Priest of Protection, can easily be appreciated. When the tariff bill is finally enacted it will be the work of Nelson W. Aldrich and it is hardly necessary to say that those special interests for which Mr. Aldrich cherishes particular regard will be well protected. Even the President himself when consulted as to his views regarding particular schedules is compelled to confess that he is a tyro in the matter, and while he does not say so, it is perfectly obvious that he, too, is depending very largely on the advice and judgment of the Senator from Rhode Island.

CURRENT COMMENT.

The Springfield (Mass.) Union (Ind.) says: "Former Secretary Straus assures us that the Roosevelt policies will not suffer at the hands of President Taft. A thing that more directly concerns the public at this time is whether the Taft policies are likely to suffer at the hands of Senator Aldrich."

The Galveston (Tex.) News (Dem.) says: "The Supreme Court never indulges itself in jesting; but one can readily imagine that the grave gentlemen who constitute it must have chuckled to themselves as they measured the width of Congress' miss. A woman throwing left handed at a duck rarely propels her bolt less accurately than Congress seems to have done in this, its effort to exercise its constitutional powers over interstate commerce. Therefore, while at first glance the decision may seem tragical to those who appreciate the evil resulting when railroads mine and sell coal, we may properly enjoy the humor of the situation after getting the assurance that Congress has the power to deal effectually with this problem. For, now that the Supreme Court has in this delicate way pointed out its power, we may indulge in the hope that Congress will take steps to exercise it in a manner that means something more than mere oratory."

The Chicago Record-Herald says: "The Bank of England refuses to give back to Turkey the $5,000,000 which Abdul Hamid squeezed out of the people and deposited in the English institution. It is understood that the refusal is based upon the theory that returning the money would establish a dangerous precedent, inasmuch as the Czar of Russia, the King of Italy and other monarchs have followed the former Sultan's course in endeavoring to provide for rainy days. If the Bank of England is going to safeguard the interests of all kings who are in danger of dethronement it ought to be able to work up quite a business. We have a number of tariff kings in this country who will doubtless be glad to place their winnings in some repository that will be absolutely safe."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

COMMITTEE VISITS UNIVERSITY THURSDAY

WERE ESCORTED ABOUT CITY BY PROMINENT CITIZENS.

Taken to the Grounds and Buildings of the University in the Forenoon.

The committee appointed for the purpose of visiting the various State institutions and rendering a report concerning their condition, needs, etc., arrived here on Wednesday evening and were met at the depot by a committee of citizens.

On Thursday morning the committee, composed of Senators E. S. Crill and D. H. Baker, and Representatives W. J. Durrance, R. L. McKenzie, Walter Page and Terrell were called upon by a number of the citizens and driven to the grounds of the State University. They visited the Experiment Station Farm, inspected the grounds and buildings, and after completing their labors were taken for a drive about the city, winding up at the University High School, where, by special invitation, they were shown through the school.

The committee were made to feel that Gainesville is imbued with educational spirit, and they expressed themselves as being highly pleased with the courtesies extended and the spirit in which they were entertained.

Among those in charge of escorting the gentlemen about the city were Major W. R. Thomas, Dr. J. L. Kelley, Capt. Geo. M. Lynch, Dr. Andrew Sledd, Geo. P. Morris, Dr. J. H. Hodges and Hon. Syd L. Carter. They left in the afternoon via the Seaboard for the return trip to Tallahassee, accompanied by Judge Carter, who has been here for the past few days on business.

While it is not known what the recommendation of the committee will be concerning the University and the general school interests of the State, it is generally believed this city will fare well in their report to the State Legislature.

The Fairy Hounds.

In some years stoats appear to be more numerous than in others, and they are seen not in ones and twos, but in dozens, hunting together in small packs. The late E. T. Booth of Brighton, when shooting in East Lothian one autumn, met a pack of stoats which attacked a terrier he had with him and would not be driven off until he and the dog between them had killed more than a dozen. Stoats will hunt together from scent and in full cry like a pack of hounds, one always keeping the line and followed closely by the others. This sight has been recorded by different observers, who have also seen weasels hunting in the same way. There is a popular notion in the west of England that hares are hunted at night by packs of little fairy hounds, locally called "dandy dogs," and these are said to be weasels, which the west country folks call "fairies," pronouncing the word "vairy" and "vair." Some of them declare that they have seen and watched the chase with awe.—London Graphic.

Poetic Justice.

A man whose soul had been tortured frequently by the remarks of his wife, who takes a fiendish delight in setting a price on the handsome clothes worn by other women, one day found sweet comfort in the incautious comment of a woman in a crowded car.

"Oh, yes," said that observing other woman, "the hat looks well enough, but it is cheap. It couldn't have cost a cent more than $6."

Thereupon said the man to his wife: "Why do you always pick out the most expensive clothes for especial notice? Why don't you look at something cheap once in awhile? There are cheap things worn. There is a hat in this very car that cost only $6. The woman just behind us pointed it out a minute ago."

"Well," said his wife, "you are the last person on earth who ought to feel proud of it. It was me she was talking about."—New York Times.

Old English Flint Glass.

Large quantities of lead and potash were introduced into the constituents of the glass which in 1673 is described as being clear, heavy and thick as crystal.

A great impetus was given to the manufacture when the edict of Nantes in 1685 drove the skilled artisans from France. Many of them came to England, and the fame of British glass grew until it was considered superior to that of Bohemia.

From 1736 to about 1761 we have but few particulars. Then Michael Edkins, formerly a potter, became prominent as a maker of the highest class of enameled glass, which has become very scarce. It has an opaque white body, beautifully painted in enamel colors with figures, flowers, etc. In fact, it much resembles a glassy porcelain. It is getting scarce, too, and fine pieces are increasing in value.—London Opinion.

Porcine Geometry.

Seven-year-old William had become the proud owner of a pet pig and insisted upon having all the care of it himself. After a few weeks, as the pig did not seem to thrive, his father said to him:

"William, I'm afraid you are not feeding your pig enough. It does not seem to be fattening at all."

"I don't want him to fatten any yet," William replied knowingly. "I'm waiting until he gets to be as long as I want him, then I'll begin to widen him out."

TO THE STREETS FOR THE BICYCLE RIDERS

ORDINANCE MAKES NO PROVISION FOR USING SIDEWALKS.

New Ordinance to Be Presented at Adjourned Meeting of City Council Tonight.

The new City Council will pass a bicycle ordinance at the meeting of that body tonight.

The new ordinance, it is said, will prohibit the riders of these vehicles from using the sidewalks almost exclusively and they will only be allowed to use thoroughfares where there is actually no paving upon the streets.

That this will prove popular there is no doubt, as numerous complaints have been made concerning the manner in which bicyclists monopolize the sidewalks and the utter disregard they show for the pedestrian.

A large number of citizens have been run into, and in some instances have been injured by the careless manner in which the bicyclists have been allowed to use the sidewalks.

The action of the new council will meet with the hearty approval of the citizens, and while a number of parties use bicycles with discretion, many delivery boys have paid no attention to the law or anything else.

Hyomei Is Guaranteed to Cure Catarrh or Money Back.

When you suffer horribly from catarrh and are constantly sniffing and snuffing, hawking and spitting, and doing other disgusting things, remember there is a certain cure, called Hyomei (pronounced High-o-me), which is guaranteed to cure.

Hyomei will give joyful relief to any catarrh sufferer in five minutes and it gives remarkable relief to consumptives.

Hyomei is medicated air prepared from the extracts taken from the giant eucalyptus trees of inland Australia, where catarrh or consumption are never known.

You breathe in this healing and antiseptic air through an inhaler and this air, with its peculiar soothing properties, passing over the inflamed and germ-ridden membrane (for catarrh is a germ disease), kills the germ, allays the inflammation, and in a short time completely cures the disease.

A complete Hyomei outfit, which includes a hard rubber inhaler that will last a lifetime, and a bottle of Hyomei, costs only $1.00, extra bottle cost 50 cents. Sold by leading druggists everywhere and in Gainesville by J. W. McCollum & Co., who guarantee it on the money-back plan. plan.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

THE CHAMELEON.

This Curious Animal Is Like Two Half Creatures Joined.

The chameleon is not allied closely to any other animal. It stands as a genus by itself. The nervous centers in one lateral half operate independently of those in the other. This seems outrageous, and it is, but it is true. The chameleon has two lateral centers of perception—of sensation and of motion. There exists also a third center—that common one in which abides the power of concentration by means of which the two sides of the creature may be forced to work in harmony with each other. But this center of concentration does not always dominate the situation. Notwithstanding the strictly symmetrical structure of the animal's two halves, the eyes move quite independently, and they convey distinct and separate impressions to their respective centers of perception. As of the eyes, so of the other members—each reports to and is controlled by its own center.

The result is that when the faculty of concentration becomes disturbed everything is jumbled. Let the chameleon be much agitated and its movements grow erratic. They are those of two creatures fastened together, or, rather, of two half creatures joined. Each half exhibits its intention of going its separate way. The result is a pitiable confusion of movement. There is no concordance of action. A curious example of the chameleon's helplessness when unduly excited is found in the fact that it cannot swim. The shock of being plunged into water upsets the poise of its faculty for concentration. Forthwith each side strikes out wildly for itself, to its own undoing. The chameleon is the only four legged vertebrate that cannot swim.

When the creature is calm every impulse to motion is referred to the common center of concentration, and the entire organism acts in fitting accord with the commands issued by that faculty. Thus, while totally different impressions from the two eyes are transmitted from their centers to the common one, that concentrating power decides as to which scene is the more important, and then directs the eye otherwise engaged also to regard it. The same principle applies in the control of all the members—so long as the animal remains unexcited. Any observer may easily verify the existence of this dual nature in a superficial way by some experiments with a sleeping chameleon. A touch on one side of the animal will wake that side up, while the other side sleeps calmly on.

NATURE'S WARNING

Gainesville People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously.

But nature always warns you.

Notice the kidney secretions.

If there are settlings and sediment,

Passages frequent, scanty, painful.

It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in this locality.

Mrs. J. L. Warren of Starke, Fla., says: "For some time I was a victim of kidney trouble. The kidney secretions were too frequent, in passage, causing me the greatest annoyance and I suffered constantly from backaches and dull pains through the kidneys. I could not rest well and in the morning arose feeling tired and worn out. My back became very lame and I often found it difficult to get around. I at length read about Doan's Kidney Pills and procured a box. Since using them, I have been free from backaches and the soreness and lameness has disappeared. The annoyance from the kidney secretions also ceased and I am able to sleep well. Doan's Kidney Pills benefited me wonderfully and I can recommend them as the best kidney remedy I ever used."

TUMOR OF FOUR YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound

South Bend, Ind. — "Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared I had. They said that only an operation could help me. I am very glad that I followed a friend's advice and took Lydia E. Pinkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it as long as I live." — Mrs. MAY FRY, Lindley, Ind.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy — tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable Compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give confidence and hope to every sick woman.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

BUSINESS METHODS.

The Value of Imagination as an Industrial Asset.

Let us assume that tomorrow you decide to embark in the business of manufacturing a toilet soap to compete with some of the well known makers. It is important that it should have a significant or attractive name. But, right at the outset, you discover that it is almost impossible to secure any satisfactory name for a new soap. Its color, transparency and clearness suggest the title of "amber soap." Yes, surely, "amber soap" does have an attractive sound. But you cannot use the word "amber," for you find that this is one of a list of twenty-four possible names for a toilet soap preempted by registration as a protectionary measure years ago by one of the leading American soap makers. They have covered over a hundred names in the past quarter of a century, willingly paying the registration charges of $25 for every title. Of course they do not intend to use them. They register them to fight off competition, believing (and here is the important point) that no clever business man would embark in the enterprise of manufacturing a new soap when from the start he was prevented from employing the powerful aid of imagination in giving it a suitable name. If an establishment like this, directed by some of the ablest heads in the business world, believes that it can discourage competition by simply depriving the would be competitor of the appeal to the imagination in the naming of his soap, how great a value must we attach to imagination in business?—Lorin F. Deland in Atlantic.

FLINT AND TINDER.

Making Fire In the Days Before We Had Matches.

A friend of mine of just my age used to laugh about his own boyhood and tell the story of his mother shaking him in bed and bidding him put on his boots when he dressed and his overcoat and wade through the snow to the next neighbor's to get a pan of hot coals with which to make the fire. I suppose Joe's mother had lost her flint. We kept our flint and what was called "the steel" in a round tin box such as would hold a quart of strawberries now, and it was on the mantelpiece in the kitchen. It was half full of tinder. Half the boys and girls of today do not know what tinder is or was.

Now, whoever was in the kitchen in the morning and found that the last hot coal of the wood fire had gone out took down the tinder box and struck the steel with the flint smartly and often until a redhot spark fell on the tinder; then very carefully she blew with her breath on any flakes of the tinder which had lighted until she had quite a little cove of lighted tinder. Then she took what we called a brimstone match and put that very carefully in the little hot hole. If all things worked well, the brimstone lighted and the wood of the match lighted, and she lighted the candle, which made a part of the tinder box.

Oh, dear! There were thousands of tinder boxes in little Boston the day I was born, and a few years ago I tried to buy one as a curiosity, and I could not find one in any of the junkshops. In those days old women would stop at the door and ask you to buy some bundles of matches. They had made these themselves of pine wood four inches long, which they had dipped in hot brimstone at both ends. And those were the only matches that anybody ever heard of.—Woman's Home Companion.

Always Dreaded the 14th.

Most dismal of all men off the stage was Grimaldi, the clown, and his father fathered him. He had that curious dread of a certain date which assails so many. The elder Grimaldi hated the 14th of the month, and when it was passed he regarded himself as safe until the next. He was born, christened and married on the 14th of the month, and, being discontented with all three events, we will hope his death on March 14, 1788, satisfied him. —London Tatler.

ABOUT ADVERTISING—NO. 3

How to Write Retail Advertising Copy

By Herbert Kaufman.

A skilled layer of mosaics works with small fragments of stone—they fit into more places than the *larger* chunks.

The skilled advertiser works with small words—they fit into *more* minds than *big* phrases.

The simpler the language the greater certainty that it will be understood by the *least intelligent reader.*

The construction engineer plans his roadbed where there is a *minimum of grade*—he works along the lines of *least resistance.*

The advertisement which runs into mountainous style is badly surveyed—*all minds are not built for high level thinking.*

Advertising must be simple. When it is tricked out with the jewelry and silks of literary expression it looks as much out of place as a *ball dress at the breakfast table!*

The buying public is only interested in *facts.* People read advertisements to find out *what you have to sell.*

The advertiser who can fire the *most facts* in the shortest time gets the *most returns.* Blank cartridges *make noise but they do not hit* —blank talk, however clever, is only wasted space.

You force your salesmen to keep to solid facts—you don't allow *them* to sell muslin with quotations from Omar or trousers with excerpts from Marie Corelli. You must not tolerate in your *printed selling talk* anything that you are not willing to countenance in *personal salesmanship.*

Cut out clever phrases if they are inserted to the sacrifice of clear explanations—*write copy as you talk.* Only be more brief. Publicity is costlier than conversation—ranging in price downward from $6.00 a line, talk is not cheap but the most expensive commodity in the world.

Sketch in your ad to the stenographer. Then you will be so busy "*saying it*" that you will not have time to bother about the gewgaws of writing. Afterwards take the typewritten manuscript and cut out every word and every line that can be erased without omitting an important detail. What *remains* in the *end* is all that *really counted* in the *beginning.*

Cultivate brevity and simplicity. "Savon Francais" may *look* smarter, but more people will *understand* "French Soap." Sir Isaac Newton's explanation of gravitation covers *six pages*, but the schoolboy's terse and homely "What goes up must come down" clinches the whole thing in *six words.*

J. E. MARTIN,
C. F. MORRISON,
J. W. PEACOCK,
G. W. PEACOCK

Proposed Articles of Incorporation of the Hawthorne Trading Company.

We, the undersigned, hereby associate ourselves together for the purpose of becoming incorporated under the laws of the State of Florida, applicable to corporations for profit.

Article 1—Name—The name of the corporation shall be Hawthorne Trading Company, and its principle place of business shall be in Hawthorne, Alachua county, Florida but it may establish offices, agents and stores in any other place or places in or out of the State of Florida.

Article 2—Business—The general nature of the business to be transacted by this corporation is:

1st. UNIVERSITY VICTORIOUS.

Defeated the Oak Halls Thursday Afternoon 7 to 1.

In a very interesting and one-sided game the University boys defeated the Oak Hall team 7 to 1 yesterday at the ball park.

The Oak Halls started the run-getting in the first, when Pat Graham lined out a hot one over third base, stole second and was forced over the plate by E. Taylor, who walked two after Mitchell's getting to first. Taylor settled down after this, striking out the next three men and retiring the side. Only three hits were made off Taylor's delivery and about eleven strike-outs were to his credit.

The University scored three runs in the first and at the right time they landed on Thomas for safe hits. Thomas yielded eight hits, and in the seventh Kennard relieved him.

For the University Bouis made several nice plays, accepting several difficult chances.

In the sixth the University made a double-play, Bouis to Price to Hunter. Hunter, Price, Langston and Shands all secured several nice hits.

The score by innings:

O. H. ..... 1 0 0 0 0 0 0 0 0—1
U. of F. ..... 3 0 1 2 0 0 1 0 *—7

S. O. Weaver has returned from a short business visit to Ocala. He went to confer with parties there who are at present doing his laundry work.

J. W. Williams of High Springs was in the city yesterday. It will be remembered that Mr. Williams had the misfortune to lose a large sum of money some time since. He states that he has never discovered even the slightest clue to its whereabouts, and even the Jacksonville arrest did not throw any light upon the subject, mention of which was made in The Sun.

Rev. I. W. Williamson's Letter.

Rev. I. W. Williamson, Huntington, W. Va., writes: "This is to certify that I used Foley's Kidney Remedy for nervous exhaustion and kidney trouble and am free to say that it will do all that you claim for it. Foley's Kidney Remedy has restored health and strength to thousands of weak, run down people. Contains no harmful drugs and is pleasant to take. J. W. McCollum & Co.
